EXPERIENCE

2020-Current

Data Manager/Web Developer/UX Designer

XR Technologies, Indianapolis, IN

Responsible for planning and setting requirements for data analysis, and evaluating and improving data processes. Single-handedly planned, designed, and developed user-friendly web applications to streamline the collection and usage of student data.

2017-2020

Lead UI/UX Designer

Crossroads Education, Indianapolis, IN

Lead the design of five SAS products. I worked closely with software developers and was responsible for conducting user and market research, evaluating existing workflows for pain points, specifying and prioritizing features, designing low & high-fidelity mock-ups, and running user tests before, during, and after feature development.

2013-2017

Graphic Designer/UI Designer

Math Assistance Center, Indiana University-Purdue University

Created branding and marketing materials, and designed several web application interfaces.

EDUCATION

B.F.A. Visual Communication Design, 2017

Indiana University—Indianapolis

Web Development Boot-Camp, May 2021

Eleven-Fifty Academy—Indianapolis
